AVARTAN - MEGA EVENT

AVARTAN is a yoga based workshop for bringing the benefits of Yoga among professionals including those in IT sector. It is a well designed combination of simplest of yoga postures, pranayama and meditation put together to induce very deep rest equivalent to 3 times that of 6 hours of good sleep. Based on concepts from Upanishads CM has been researched extensively and time tested for the last three decades for quick and instant relief from stress! 'AVARTAN' is a day long workshop on Cyclic Meditation or Avartana Dhyana. Conducted by Ex NASA scientist Dr H R Nagendra and his team, this event would prove to be an enthralling experience for all of you. The 5000 professionals in Kantheerava Indoor Stadium will synergize the effects It gives a great opportunity to correct your lifestyle beset with tensions and stresses and to unfold the tremendous inner potential into our day to day life.

WHY 'AVARTAN'

Modern lifestyle needs Professionalism, Professionalism needs Sensitivity, Brilliance, and Creativity. Increased sensitivity, brilliance and creativity leads to stress and deteriorating health. Most of us work the Abhimanyu way: we know how to enter into the depth of the subject but not to come out of it. We will get stuck in the center that leads to Stress at mind level (Adhi) which is the root cause for modern diseases at body level (Vyadhi). Modern science is limited to the understanding of the physical level, but upanishads with their total vision suggest the sure way to conquer stress. Avartan is designed on the basis of the teachings of Mandukya Upanishat Karika.

Sponsorship and Exhibition choices are detailed overleaf along with Names of the Co-ordinators and their contact phone numbers. Please feel free to get in touch for further details. We look forward to seeing you at
